

DIGITAL ENGINEERING (BIM) MANAGEMENT

EXPERTISE

We develop tailored BIM Execution Plans for each project. For complex assets like airports and healthcare facilities, early setup and auditing are essential to ensure accuracy while meeting stringent delivery requirements.

AUDITING

Regular audits ensure correct setup, maintain quality digital assets, and support clear communication with an adaptable project-specific checklist.

ISSUE TRACKING

Our Digital Engineering Systems provide real-time issue tracking. We assign, monitor, and report issues, giving clients access via email, PC, and mobile.

FACILITIES MANAGEMENT DATA

Data Management is set up from the start to ensure a smooth handover. It is continuously updated, finalised at project completion, and delivered in the required facilities management formats.

OUR SERVICES

- ▶ **DIGITAL ENGINEERING (BIM) MANAGEMENT**
- ▶ MECHANICAL SHOP DRAWINGS
- ▶ ELECTRICAL SHOP DRAWINGS
- ▶ HYDRAULIC SHOP DRAWINGS
- ▶ DESIGN DRAFTING
- ▶ SPECIALISED PROJECT SYSTEMS
- ▶ AS BUILTS
- ▶ AUTOCAD DRAFTING
- ▶ COORDINATION
- ▶ BUILDING COORDINATION
- ▶ INSTALLATION DRAFTING
- ▶ SCHEDULING
- ▶ PREFABRICATION
- ▶ 3D IMAGES AND RENDERS
- ▶ 3D ANIMATIONS
- ▶ SCAN TO BIM
- ▶ SOLAR AND BESS DRAWINGS
