

MECHANICAL SHOP DRAWINGS

Design data from the model creates precise Mechanical Shop Drawings, giving you quick and easy access to information.

MANAGEMENT AND COMPLIANCE

Projects often rely on mechanical services to lead and coordinate other trades, requiring a deep understanding of project deliverables. Draftech's expert engineers make strategic and informed decisions to prevent future issues.

QUALITY

We have been producing mechanical shop drawings since 2001. Our well tested BIM Systems ensure quality and adapt to project changes.

COMMUNICATION

We connect with the site through multiple platforms to deliver high-quality drawings, ensuring a smooth installation. Proactively managing the model before construction helps eliminate uncertainties.

COST EFFECTIVE

Our streamlined production systems ensure an efficient start, delivering cost-effective solutions with quick turnaround times. We standardise documentation and outputs for large projects, ensuring consistency and benefiting all parties involved.

"Draftech's attention to detail and proactive nature throughout the project assisted us in identifying issues before becoming evident on site, saving us both time and unexpected costs."
